UNILITE LED Compact Work Light, Rechargeable, 500 Lumen

A compact USB rechargeable work light with a bright 500 lumen output. Its folding 180° folding kick stand contains a useful hanging hook and strong integral magnets. An IPX5 waterproof rating ensures high water resistance and an additional 300 lumen torch provides a useful spot light.

SLR500

\$99

UNILITE Inspection Light, 275 Lumen w/ Magnetic Base

A bright 275 lumen LED pocket inspection light constructed of durable die-cast aluminium. A strong magnetic base allows hands-free placement and its anti-roll body keeps it stable when used on its side. It has a useful aluminium rear pocket clip attachment for added portability.

PL3

\$30

UNILITE Rechargeable LED Right Angle Worklight, 700 Lumens

Slim bodied with a useful 130° rotating head to angle the light direction, high CRI96+ 700 lumen COB LED main beam as well as a red LED with static & flash modes.

RA700R

\$142

UNILITE LED Inspection Light, Rechargeable, 600 Lumen

The IL-625R is a compact rechargeable inspection light with a powerful 625 lumen output. Weatherproof and shock resistant with ratings of IP65 and IK07, ensuring both robustness and durability.

IL625R

\$135

UNILITE

LED WORKLIGHTS BUILT TOUGH

Every single work light we build, has to be ultra tough, made from premium materials like our signature aircraft grade aluminium, feature rich.. and incredibly stylish.

WHEN IT COMES TO DESIGN WE HAVE A ONE TRACK MIND. WE'RE NOT ASHAMED TO ADMIT IT.

BRAKE WASHERS

Clayton Brake Washers are designed for cleaning vehicle brakes during brake inspections and repair jobs. All brake washers are mobile; they can be used to safely clean hazardous dust from all types of brakes, then set aside to allow the brake work to continue.

Features of the Clayton Brake Washers:

- Air powered pump
- Flow-thru brush
- Air regulator
- Safety drying gun
- Injector nozzle
- Care free disposal system™

All Clayton Brake Washers comply with OSHA Asbestos Regulation CFR 1910.1001, OSHA-preferred, low pressure brake washing system eliminates exposure to airborne brake dust during drum removal and brake cleaning.

BCE-200 Mini Air Brakewasher

The Clayton BCE-200 is perfect for low volume shops, motorcycles, golf carts, and cars serviced on safety stands or ramp style lifts.

- Lightweight & compact
- Compressed air powered
- Flow-Thru brush
- Injector nozzle

NEW

Drum Style Portable Brake Washer

The Clayton BCE-500 Super Brake Washer for cars and light trucks can be used on vehicles serviced on lifts or on jack stands. The washer runs entirely from shop air, no electricity required. Carefree Disposal design allows users to toss filters in the trash and pour wastewater into shop sanitary drain. Eliminates disposal fees and need for aerosol cleaners.

822500X

\$2596

Truck Brake Washer, Low Profile

The Clayton BCE-400 Truck Brake Washer is designed and engineered to clean the brakes on heavy duty trucks, buses and off road equipment the way technicians really work on these vehicles - on the floor. The washer is made in the USA and is an OSHA Preferred Method for dust control. It is low profile, and arrives complete and ready to use, with no assembly required. The Carefree Disposal design allows users to toss filters in the trash and pour wastewater into shop sanitary drain, eliminating the need to pay costly disposal fees. The washer runs entirely from shop air, no electricity required.

MAX-JAX

Portable Lift, 6000lb(2700kg) Capacity, 1168mm Lift, Standard Package, 240V, CE Certified

The Patented One-of-a-Kind MaxJax® Portable Car Lift Safety Features from the Ground Up No one in the industry has a more sophisticated and comprehensive research and quality control program than MaxJax, and our thousands of customers worldwide prove it. Low-pressure HVLP Direct-Drive cylinders eliminate the need for lifting chains or screw mechanisms most commonly found on other lift designs. Hydraulic cylinders feature integrated velocity-fuse safety valves. A robust, gear-type flow divider precisely distributes hydraulic pressure providing consistent, equalized lifting. Rugged safety lock bars are capable of holding three-times the rated lifting capacity. Arm restraints automatically engage each time the lift is raised. Detailed installation, maintenance and safety instructions accompany each MaxJax car lift. MaxJax encourages all owners to know their equipment and to follow good safety practices when using any of our products. Your MaxJax car lift equipment has been designed and built with your safety in mind, but the ultimate responsibility for safe operation is with you, the operator.

Portability A two-post car lift with built-in wheels that allows you to use the lift when you need it, then conveniently store it out of the way when not in use keeping your garage and vehicle lanes clutter-free.

Low-profile arms Fit under the lowest compact and sport vehicles or custom motorcycles with lowered frames.

Direct-Drive technology By utilizing two low-pressure HVLP Direct-Drive cylinders, we've eliminated the need for lifting chains or screw mechanisms most commonly found on other lift designs. HVLP Direct-Drive technology offers better reliability, smoother operation and less maintenance.

\$6495

QUICKJACK™

2,270kg BendPak Portable Car Lift

5000TL portable car lift adds an extra 3" (76mm) bringing the lifting height to an impressive 24" (610mm). This enhancement increases access to the undercarriage of the vehicle and provides an overall increase to your comfort and capability. 5000TL Portable Car Lift System QuickJack is constantly improving and evolving to fit your automotive needs in the garage or on the track. 5000TL is the highly-anticipated sequel to the most popular automotive tool to ever hit the home garage or auto repair shop. With the ability to lift an extra 3-inches, 5000TL portable car lift provides more room to tackle every repair and maintenance task on vehicles weighing up to 5,000-lbs (2,270kg). Through superior engineering and design, we've been able to produce an extra 3-inches of lifting height without sacrificing the overall dimensions that has made QuickJack a must-have in your garage. 5000TL still has an impressive 3" lowered height, 70" (1,778mm) overall length, and 11" (279mm) overall width.
